## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see Pages 11-19, filed April 12, 2005, with respect to Claims 1-30 have been fully considered and are persuasive. The rejections of Claims 1-30 have been withdrawn.

### ***Allowable Subject Matter***

2. Claims 1-30 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Applicant has sufficiently amended all structural independent claims to recite the limitation wherein a stack/plurality of plates are rotatable relative to one another, and not together as taught by the closest prior art of Reinart [U.S. Patent 6550939 – see Figure 14: (70)]. Thus, the prior art fails to teach or suggest the combination of structural elements disclosed and claimed herein, and all subsequent dependent claims are allowed.

In addition, independent Claim 27 and subsequent dependent claims are allowable for reciting the method of making the novel framing shutter assembly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2875
